AD FORMAT/CREATIVE TYPES

 No deceptive creative tactics. These include ads simulating computer system warning dialog boxes that lead the viewer to believe their computer, our server or the system is experiencing technical difficulties, or that they need to click on the box (ad) to eliminate the message from their screen.

- If third party served, Flash creative must sniff for the plug-in, and if not present, serve a GIF. Back-up GIFs must always be provided.
- Ads must not modify any elements of a user's browser or computer settings. Ads must not resemble the Inside The Valley's editorial content (exact or close replica). Ads must not include references to the San Fernando Valley Business Journal unless part of previously arranged co-promotion.

GENERAL GUIDELINES BORDER

If ads are on a white background, they must include black, encasing one pixel rule. The length of the website is 2575 px.

TESTING

Creative must be delivered 7 days prior to launch for testing and Q&A. All creative must function uniformly on both Mac and PC platforms, as well as multiple versions of all major browsers. Any units not conforming to all outlined specifications will not be placed online and will result in delayed start dates.

STANDARD CREATIVE

GIF, JPEG, PNG. Third-party internal redirect tags accepted. No INS tags accepted.
